🚗 **Automotive Sales Dashboard - India**

📌 **Project Overview**

This project presents an interactive **Automotive Sales Dashboard** built using Excel. It analyzes sales performance of four-wheeler vehicles across India, helping users gain insights into revenue, profit, and overall business trends.

📊 **Data Summary**

- Dataset contains **100 records**
- Covers automotive sales details across different cities in India
- Includes financial and sales-related metrics

📂 **Columns Description**

- **Car Model** – Name of the vehicle
- **Brand** – Manufacturer name
- **City** – Location of sales
- **Sales Year** – Year of sales
- **Units Sold** – Number of vehicles sold
- **Price per Unit** – Cost per vehicle
- **Revenue** – Total sales value
- **Cost** – Total cost incurred
- **Profit** – Revenue - Cost
- **Salesman** – Sales representative
- **Customer Rating** – Feedback score

📈 Key Insights

- Identifies **top-performing brands and models**
- Tracks **year-wise sales growth**
- Highlights **high-profit cities**
- Shows **salesperson performance**
- Helps in understanding **customer satisfaction trends**

📂 File Structure

```
📂 Automotive-Sales-Dashboard
|-- 📊 four_wheeler_automotive_india.xlsx
|-- 📄 README.md
```

🛠️ Tools Used

- **Microsoft Excel**
  - Pivot Tables
  - Pivot Charts
  - Slicers
  - Dashboard Design

📊 Dashboard Features

- Interactive **slicers** (City, Year, Brand)
- KPI cards:
  - Total Revenue
  - Total Profit
  - Units Sold
- Charts:
  - Sales by City
  - Profit by Brand
  - Year-wise Trend
- Clean **dark theme design**

🚀 Getting Started

1. Download the Excel file
2. Open in **Microsoft Excel (2016 or later recommended)**
3. Use slicers to filter data
4. Explore insights from charts and KPIs

💡 Use Cases

- Business performance analysis
- Sales trend tracking
- Profitability insights
- Dashboard design practice
- Data analytics portfolio project

🤝 Contributing

Contributions are welcome!
If you'd like to improve this project:

- Fork the repository
- Make your changes
- Submit a pull request

🙏 Acknowledgements

- Dataset created for learning and portfolio purposes
- Inspired by real-world automotive sales analytics
